Latest News

**James Jack Lifting Services Ltd has a long established and well respected reputation for providing lifting solutions to suit each customer's specific requirements throughout the UK.**

**To support this the company offers a large comprehensive modern all-terrain mobile crane fleet, fully tested, certified specialist lifting equipment and fully qualified CITB operators.**

## Specialised Smaller Cranes

**The company was one of the first companies in the UK to take delivery of the compact city cranes. The city cranes are often able to carry out complex lifting operations in small compact areas, including inside buildings.**

**James Jack Lifting Services Ltd is able to undertake all types of lifting operations required by customers using the full range of cranes up to 400 tons in capacity.**

**The company also has heavy haulage units up to 150 ton gross. This enables us to provide both the lifting service to a customer and also the transportation of the lifted goods to the end destination.**

#### Related Services

#### CONTRACT LIFTS / APPOINTED PERSON

**We have fully certified Appointed Persons who will plan and control the lifting operation. This is often coupled with the customer requesting that the lifting operation is carried out as a Contract Lift as opposed to the lift being under standard CPA conditions. Under this arrangement James Jack will take responsibility for the planning and management of the lifting operation along with the insurance requirements of the cranes being used and the goods or item being lifted.**

#### SITE VISITS

**James Jack will carry out a site visit to discuss the lifting operation and to advise on the logistics required.**

#### METHOD STATEMENTS

**James Jack will prepare the method statement and lifting plan if required.**

#### BANKSMAN / SLINGERS

**We have fully certified banksman / slingers who can assist in the management and execution of the lifting operation.**

## INSURANCE

---

**James Jack can arrange insurance for the customer for either the cranes and/or the goods or items being lifted.**

## CONDITIONS OF SERVICE

---

**Crane hire is carried out under standard CPA (Construction Plant Hire Association) model conditions of hire unless additional insurance is requested by the customer or a Contract Lift is required.**
